

7th July 2009-07-30

You and Phil have been very helpful to Jadoo. You have provided tremendous assistance in helping Jadoo define its market niche, given confidence to the management team and, tirelessly represented our interest to numerous parties. Most importantly, we have all felt that we were in "good hands" in working with you and your guidance throughout the engagement has been impeccable. I am hopeful that our continuing path will lead to a way that we can work together again.

In closing, there are many arrangements that we enter into as part of our normal business; however few lead to the trust and friendship that has developed between Core and Jadoo. The Jadoo management team and I look forward to continuing this relationship.

Cheers,

Leonard
