Dear Simon

### **Core Technology Ventures Services**

I would like to confirm our satisfaction with Core Technology Ventures' performance over the course of our various contracts with it to date.

We have found CTV's knowledge of the hydrogen and fuel cell industry very useful in supporting our work with low carbon technology start-up companies. In particular we have found CTV's network of industry contacts valuable in rapidly connecting new companies to the key players in the industry. CTV's in-depth financial experience within the sector has also brought a pragmatic viewpoint to the companies' fund-raising plans.

We look forward to further opportunities to work with the CTV team.

Yours sincerely

Dr Simon Crook  
*Senior Consultant*
