

May 2012

To whom it may concern

CoreTec Ventures has been a most effective partner to Cella Energy from its moment of conception to this day.

Simon's considerable energy is matched by his contact's book as evidenced by his instrumental role in raising and completing 2 rounds of finance for Cella in 18months.

He also introduced a Non-executive Director, our current Non-Executive Chairman, a large US battery manufacturer with whom we have a confidential Joint Development Agreement and our strategic manufacturing partner, Thomas Swan & Co Ltd.

I'm pleased to add that as a consequence of this successful partnership, we are now working with Simon and CoreTec on our 3rd round of finance.

Yours sincerely

Stephen Voller
CEO, Cella Energy Ltd
