(Extract from the IdaTech Acquisition Completion Press Release, Aug '06)

“We are grateful to the CoreTec team for introducing us to the IdaTech acquisition opportunity. CoreTec’s introduction and subsequent support throughout the completion process was invaluable, in particular the assistance and advice they gave in selecting the appropriate technical and commercial experts to perform appropriate due-diligence. The speed with which CoreTec identified and put forward experts from its networks helped to keep the timetable to completion on track. We are also in discussions with CoreTec regarding suitable IdaTech non-executive board members” said Michael Lacey-Solymar of Investec.
